19. Safeguarding of Client Money

19.1. The Company will place any Client money it receives into one or more segregated account(s) with reliable Financial Institutions. It is understood that the Company may keep merchant accounts in its name, as the operator, or in the name of another company, acting as a merchant, whose details are found on the preamble of this Agreement, with payment services providers used to settle payment transactions of its clients.

19.2 However, for the avoidance of doubt, it is clarified that such merchant accounts are not used for safekeeping of Client money but only to effect settlements of payment transactions. It is agreed that the Company may use the services of a merchant company for facilitating all communications in an electronic payment transaction. 19.3. For the purposes of safeguarding of Client money, the Company:

- a. shall keep such records and accounts as are necessary to distinguish Clients' assets from its own and of other Clients'; such records shall be accurate and correspond to the Client money;

The Company takes into account the expertise and market reputation of such institutions with the view of ensuring the protection of Client's rights, as well as any legal or regulatory requirements or market practices related to holding of Client money that could adversely affect Client's right. However, it is understood that there are circumstances beyond the control of the Company and hence the Company does not accept any liability or responsibility for any resulting losses to the Client as a result of the insolvency or any other analogous proceedings or failure of the financial institution where Client money will be held.

19.4 The financial institution to which the Company will pass Client money (as per clause 19.1 of this Client Agreement) may hold it in an omnibus account. Hence, in the event of the insolvency or any other analogous proceedings in relation to that financial institution, the Company may only have an unsecured claim against the financial institution on behalf of the Client, and the Client will be exposed to the risk that the money received by the Company from the financial institution is insufficient to satisfy the claims of the Client.

19.5. It is understood that the Company may hold Client money and the money of other clients in the same account (omnibus account).

19.6. The Company shall not account to the Client for profits or interest earned on Client money (other than profit gained through trading Transactions from his Trading Account(s) under this Agreement) and the Client waives all right to interest.

The Company reserves the right to ask the Client to submit documentation in order to start using the Client Account. Money in the inactive account shall remain owing to the Client and the Company shall make and retain records and return such funds upon request by the Client at any time thereafter. It is noted that the Client keeps with the Company a Trading Account and not a Safekeeping Account.

You further acknowledge that upon opening a Sell or closing a Buy, you may only do so at the price quoted by the Trading Platform for such Underlying Asset.

2.3. On the Trading Platform, you shall be entitled to make an offer to open a Transaction at the best available rate on the Trading Platform ("Market Order") at the time of opening such a Transaction, unless you specify a particular price in which to make an offer to open a Transaction ("Limit Order"). With respect to a Market Order, the price at which a Transaction is completed may not always be at the exact rate displayed when the order is submitted. You agree that your offer to open a Market Order may be accepted at a lower price or higher price than the price indicated by you in your Market Order, within a certain range as specified on the Trading Platform from time to time. If you choose to open a Market Order, your offer will be accepted at the best possible rate offered on the Trading Platform.

At any time prior to acceptance of a Limit Order, you may cancel the Limit Order without any further liability. If you choose to open a Limit Order, your offer will be accepted at the best possible rate offered on the Trading Platform.

2.5. Orders can be placed and (if allowed) changed within the Trading Hours for each type of FX appearing on the Company's Website, as amended from the Company from time to time. The Client agrees that the Orders to open a position if accepted by the Company outside the Trading

Hours may not be capable of execution should the market not trade at the price stipulated once Trading Hours commence.

2.6. Pending Orders, not executed, shall remain effective through the next trading session (as applicable). All open spot positions will be rolled over to the next Business Day at the close of business in the relevant Underlying Market, subject to the Company's rights to close the open spot position. Any open forward positions will be rolled over at the expiry of the relevant period into the next relevant period subject to the Company's rights to close the open forward position.

2.7. Market Orders not executed because there is not enough volume to fill them, will not remain effective and will be cancelled.

2.8. Orders shall be valid in accordance with the type and time of the given Order, as specified by the Client. If the time of validity of the Order is not specified, it shall be valid for an indefinite period. However, the Company may delete one or all Pending Orders if the Trading Account Equity reaches zero.

2.9. Orders may be removed by the Client before they are executed.

2.10. Stop loss and Take Profit orders may be changed as long as they are higher in distance than a specific level (depending on the trading symbol).

2.11. The Client may change the expiration date of Pending Orders or delete or modify a Pending Order before it is executed. In order to change the expiry, the Client will need to cancel the Order and place a new one.

2.12. Orders on currencies are executed as follows:

- a. Take Profit (T/P) orders are executed at stated prices;
- b. Stop Loss (S/L) orders are executed at first market prices;
- c. Stop Loss (S/L) orders set for lock positions are executed at first market prices;
- d. Limit orders are executed at stated prices;
- e. Buy Stop and Sell Stop orders for position opening are executed at first market prices.

2.13. It is understood that Quotes on the Client Terminal are indicative Quotes and Slippage may occur. To this end the Client acknowledges and agrees that:

- a. due to market volatility and factors beyond its control, the Company cannot guarantee that an Order (including Stop Loss and Take Profit Orders) will be executed at the level specified in the Client Order. For example, an Order may be closed at a worse price than as originally specified by the Client in such an Order (i.e., Negative Slippage). In such an event, the Company will close the Transaction at the next best price.
- b. where the price for an Underlying Asset moves to the Client's advantage (i.e., Positive Slippage), the Company can pass such price improvement on to the Client.

2.14. In the event that the Company is unable to proceed with an Order, with regard to price or size or other reason, the Company will send a re-quote to the Client (with the price it is willing to deal until the price the Client asks is available). The Order will be rejected and the Client will need to place another Order.

2.15. The Company shall not be obliged to arrange for the execution of the Client's Orders in respect of any FX out of normal Trading Hours which appear on the Company's Website.

2.16. The Company will delete Error Quotes (Spikes) from the Server's Quotes Base.

3. Stop and Limits

3.1. We may, in our sole discretion, allow you to specify a closing price for a Transaction through a Stop Loss and Take Profit Order, subject always to the terms of the Client Agreements and any other terms and conditions we may implement from time to time.

3.2. Upon your offer and our acceptance of your Order, you hereby authorize us to close the Transaction at the "Stop Loss" price or "Take Profit" price, as applicable, and as agreed in the Order, without further instruction from or notification to you. We may, in our sole discretion, close the Transaction when the price quoted by us on the Trading Platform equals or exceeds the price accepted by us for such an Order. You acknowledge that we will not be required to close any Transaction if you are not in compliance with any of the factors set forth in clause 13.13 of this Client Agreement.

3.3. We may, in our sole discretion, allow you to request the opening or closing of a Transaction, including a "Stop Loss" and "Take Profit" Order, within a specific time period determined by you. If we have accepted such a request, we may in our sole discretion, close the Transaction within such specific time period. You acknowledge and agree that we shall not be obliged to close such a Transaction outside such specific time period or which does not otherwise comply with any other limitations agreed upon with respect to such Transaction.

3.4. We may, in our sole discretion, accept an offer to place a Trailing Stop in relation to a Stop Loss Order. You acknowledge that the original price level set forth in a Stop Loss Order may be amended as the market on the Trading Platform moves in your favor. Whilst your Trailing Stop is still in effect, you agree that each change in the market by at least a Pips on the Trading Platform in your favor shall constitute a new offer by you to raise the level of your Trailing Stop by one hundredth of one percentage point. Changes in a Pip will be rounded to the nearest absolute value in your base currency based on your country of origin, as shall be specified on the Trading Platform.

3.5. You acknowledge and agree that due to market volatility and factors beyond our control, we cannot guarantee that an Order will be executed at the level specified in your Order, for example, an Order may be closed at a worse price than as originally specified by you in such an Order. In such an event, we will close the Transaction at the next best price. For example, with respect to a Stop Loss Order, in the case of a Buy, the price of an Underlying Asset underlying such Order may suddenly decrease below the Stop Loss price, without ever reaching such price. In the case of a Sell, the price of an Underlying Asset underlying such Order may suddenly increase above the Stop Loss price, without ever reaching such price.

3.6. With respect to a Take Profit where the price for an Underlying Asset moves to your advantage (for example, if the price goes down as you buy or the price goes up as you sell), you agree that we can (but do not have to) pass such price improvement on to you. For example, in the case of a Buy, the price of an Underlying Asset underlying such Order may suddenly increase above the Take Profit price, without ever reaching such price. In the case of a Sell, the price of an Underlying Asset underlying such Order may suddenly decrease below the Take Profit price, without ever reaching such price.

3.7. The Client agrees that placing a Stop Loss Order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.

3.8. The Client agrees that trading operations using additional functions of the Client Trading Terminal such as Trailing Stop and/or Expert Advisor are executed completely under the Client's responsibility, as they depend directly on his trading terminal and the Company bears no responsibility whatsoever.

4. Swaps

4.1. Any open Transaction held by you at the end of the trading day of the Underlying Market or over the weekend when the relevant Underlying Market is closed, shall automatically be rolled over to the next business day to avoid an automatic close. You acknowledge that when rolling such Transactions to the next Business Day, a Premium/Swap will be either added or subtracted from your Account with respect to such Transaction ("Rolling"). The Swap amount is a constant percentage of the position value and is based on a number of factors including among others, whether the Transaction is a Buy or a Sell, interest rates, Underlying Asset differentials, daily price fluctuations and other economic and market-related factors. The Swap for each Underlying Asset is displayed in the "Specification" menu for each specific Underlying Asset on the Trading Platform.

4.2. In deciding whether to open a Transaction for a specific Underlying Asset, you acknowledge that you are aware of the Swaps.

4.3. You hereby authorize us to add or subtract the Swap to or from your Trading Account for any open Transactions that have accrued a Swap, in accordance with the applicable rate thereto, each day at the time of collection specified on the Trading Platform for each individual Underlying Asset, as applicable.

4.4. The Company may, under specific circumstances, offer Swap-Free accounts, and this section outlines the terms and conditions governing the use of these swap-free trading accounts. These terms come into effect upon the conversion of the customer's trading account into a swap-free type:

- a. Swap-Free accounts are created by GoldFx Customer Relations or Dealing Departments following a request from the Customer and subject to the Company's approval.
- b. The Company reserves the right to reject the Customer's request without providing a specific explanation.
- c. The Swap-Free service is applicable to a specific list of trading instruments, which will be provided by the Customer Relations or Dealing Departments upon the Customer's request for the Swap-Free service.
- d. Swap-Free service is granted for a specified duration, with specific details provided by the Customer Relations or Dealing Departments upon approval of the service.
- e. Customers have the option to request the conversion of their trading account back to the regular type (with swaps) at any time.
- f. In the case of a repeated request for the Swap-Free service, the Company reserves the right to request justification from the Customer for these actions.
- g. In the event of any violations, the Company reserves the right to terminate the Swap-Free service on the Customer's account and charge swap amounts for the period when the account was under the Swap-Free conditions.
- h. The terms of the Swap-Free service are considered supplementary to the Company's primary service agreement and take precedence in the event of discrepancies with the main agreement regarding trading conditions.
- i. The provisions of the Swap-Free service are considered terminated upon the receipt of the Customer's application by the Company's Customer Relations Department for the cancellation of the Swap-Free service.

5. Expiry Transactions

5.1. We may, in our sole and absolute discretion, set an Expiry Date and time for a specific Instrument.

5.2. In the event we set an Expiry Date for a specific Underlying Asset, it will be displayed on the Trading Platform in the details link for each Underlying Asset. It is your responsibility to make yourself aware of the Expiry Date and time.

5.3. If you do not close an open Transaction with respect to an Underlying Asset which has an Expiry Date, prior to such Expiry Date, the Transaction shall automatically close upon the Expiry Date. The Transaction shall close at a price which will be the last price quoted on the Trading Platform immediately prior to the applicable Expiry Date and time.

6.9. Direct fund transfers between the Investor and Trader are strictly prohibited.

7. Technical Regulations of the Asset Management System

7.1. The technical regulations of the Asset Management System (PAMM/MAM) encompass descriptions of the timeframe and various procedures. All participants in the PAMM/MAM Project acknowledge the potential for process failures outlined in the technical regulations, especially in cases involving technical equipment failures belonging to the Company, third-party providers, or other technical issues.

- Registration Traders in the system;
- Transferring the funds from the Investor account to the account of the chosen Trader for the purpose of investing into the PAMM/MAM portfolio;

- Stop investing in the chosen Portfolio and return the Investor's money back in the current level of remaining funds.
- Regular information updating about the state of PAMM-Trader's account with all details displayed in the Asset Management platform of Investors.

7.3. Registration of Investors is conducted when they apply for investor registration in the Asset Management Platform.

7.4. Registration of traders occurs when they are granted access to manage the PAMM/MAM Projects in the Asset Management platform.

7.5. Investors can apply for investment through the Asset Management Platform by selecting one of the Portfolios (Projects) displayed in the dashboard of the Asset management Platform. Funds are deducted from the Investor's wallet account after the investment application into the selected Portfolio is approved by the Portfolio Manager. If the trader accepts the application, the funds are transferred to the trader's account, and the investor becomes a beneficiary of the PAMM Trader account's share, proportionate to their investments in the account. If the application is declined by the Trader, the funds are returned to the Investor's account.

7.6. Traders can view new investment applications in their Asset Management Platform. They have the option to accept or decline each new application within 48 hours of receiving it. In the absence of any action from the Trader regarding the received investment application, the funds are returned to the Investor's account.

7.7. Whenever there is a transaction involving the deposit or withdrawal of funds to/from the Trader's account, there is a recalculation of shares for all Investors in the Portfolio account, as well as for the Trader. These calculations are based on deductions from each investor's investment in the account and the percentage of these shares in the total account funds. This information is used to further calculate the profit statistics for each Investor. Profit information is updated periodically, but with some time delay, typically not exceeding one hour.

7.8. Investors have the option to request a refund through the Asset Management Platform. The refund is typically processed within 48 hours, which is the maximum allowable timeframe for the Trader to process the refund (withdrawal) request. It's important for investors to understand that the profit or loss they experience at the time of the share return may vary from the information displayed in the Asset Management Platform at the moment of their application registration.

7.9. The return of an Investor's share is executed by deducting the funds equivalent to the Investor's absolute share in the Portfolio's account and subsequently transferring these funds to the Investor's account. This transaction precedes the payment of the Trader's share of profits.

7.10. The payment of the PAMM trader's share of profits after the return of the PAMM investor's share is carried out immediately after the transfer of the sum owed to the PAMM investor to their trading account. The calculation of the PAMM trader's profit involves the level of profit due to the PAMM trader, earned between the moment of funds transfer by the PAMM investor to the PAMM trader's account and the moment of deducting the investment from the PAMM trader's account, as well as the proportional share of the PAMM investor. This calculation of the PAMM trader's profit is performed only if profit is earned between the mentioned moments.

7.11. Traders can deposit funds into the investment account, following a standard procedure for depositing funds into the wallet account in the member's area of the official website. After crediting the wallet, Traders must transfer the funds to the Portfolio account, thereby increasing their share in the trading account, if there are funds from Investors.

7.12. Traders can apply for withdrawals from the wallet through the member's area of the Company's official website. During the withdrawal registration, Traders specify the withdrawal amount of available funds on the wallet.

7.13. The processing of Trader's withdrawal orders from Portfolio account involves an instant deduction of funds from the Portfolio account to the wallet. Subsequently, the trader proceeds with withdrawing funds from the wallet account.

7.14. Calculation of shares and profits in the Portfolio account is initiated when:

- a. An investment is credited to the Portfolio's account.
- b. An investment is withdrawn from the Portfolio's account.
- c. The Portfolio's account is credited with a rebate.

7.15. Shares and profits are calculated on Portfolio account when:

- a. New investments.
- b. Withdrawals held by active Investors.
- c. Profits or losses in the Portfolio account.
- d. Rebates credited to the Portfolio account.

All calculations are based on the Equity value rather than the Balance of the account. The specific formula used for calculations is considered a commercial secret of the third-party provider, the Asset Management platform. However, it ensures that calculations are consistently based on real profit and loss in the trading account, guaranteeing accuracy under normal conditions (absence of technical failures on the Company's side).

7.16. Access to statistical data of the Asset Management System includes:

- a. Leaderboard of Portfolio accounts within the Asset Management platform provided by the third-party Platform provider. A mirror of the leaderboard may be displayed on the Company's official website or the websites of official partners.
- b. Information regarding the balance and equity received during the most recent data calculations of the Portfolio account.
- c. Information about investment history and current investments made in the Portfolio's account. Access to these statistics is provided by the third-party Asset Management platform provider to ensure transparent control over the Trader's account. However, technical implementation may involve some time delays in updating statistics, typically not exceeding reasonable timeframes.

8. Usage of Bonuses on Asset Management Accounts

8.1. The utilization of any form of bonuses on PAMM/MAM Trader and Investor accounts is strictly prohibited.

9. Risk Notification

9.1. By participating in the Asset Management System, both Traders and Investors fully acknowledge the associated risks, including potential problematic situations.

9.2. Investors are fully aware of the possibility of a complete loss of funds in the event of unsuccessful trades by the Trader.

9.3. Investors should have a thorough understanding that the information available in the statistics of the Asset Management System as described in section 7 of this Appendix may differ from real-time data. Specifically, a Trader may incur losses of a significant portion of the deposit while the statistics continue to display outdated information. The delay in displaying funds, balances, and other account information is a technical feature of the Asset Management system and, under normal circumstances, does not exceed 1 hour.

9.4. Investors must recognize the risks associated with situations where investment return orders are placed at the time of outdated statistics display, and real-time data may differ from the information present at the time of investment return and the calculation of the share payable to the Investor from the Trader's account.

9.5. Traders and Investors fully accept the risks associated with delayed processing of requests by the Asset Management System, which are typically processed automatically within 1 hour under normal conditions. In case of technical disruptions on the part of the Company, the timely processing of such orders, including transfers or refunds of investments, as well as the updating of statistics, cannot be guaranteed. Traders and Investors assume responsibility for risks related to delayed processing of requests by the Asset Management System caused by technical disruptions from the Company or the third-party Asset Management Platform provider, leading to losses for either party.

9.6. Investors and Traders confirm their acknowledgment of the risks associated with possible adjustments or disallowance of investment performance for both parties if Investors or Traders achieve profits through violations of the Company's regulations.

9.7. Resolution of Claims and Complaints within the Company:

- a. Both Traders and Investors commit to addressing all claims related to the technical aspects of the Asset Management System through correspondence with the Company while maintaining confidentiality until the conclusion of the investigations.
- b. The Company pledges to review all complaints and claims solely pertaining to the functionality of the Asset Management System (excluding the profitability or non-profitability of Trader's trades) within 30 calendar days from the date of receipt.
- c. All received complaints and claims are evaluated in accordance with the terms of this Appendix and standard industry practices when aspects of operation are not explicitly defined in this Agreement.

10. Liability

10.1 Subject to applicable law, neither Olympic Markets Ltd (GoldFx), Asset Management Platform provider nor any affiliated parties shall be held liable for losses arising from the execution of the Investors instructions, decisions, or actions of the Traders which they trade.
